PIPE DREAM

We've got beautiful bike storage on tap

Backyard bike storage is rarely regarded as ripe for design deliverance, but Italian architects Parisotto + Formenton and Natalino Malasorti of CEA Design thought otherwise, conceiving this set of pipes to hang your handlebars on. 'Hook' is, in fact, a makeover of the outdoor tap, in gleaming stainless steel, but features a series of accessories, including a nifty bike hanger. We've perched on it our favourite new city bike, Van Moof's 'Electrified S2', complete with invisible batteries, stealth locking and a trusty turbo button. Meanwhile, go the extra yard with Wall & Decò's 'Not A Stroke' all-weather wallpaper, paired with the drum-like 'Cosimo' coffee table, designed by Clodagh for Restoration Hardware. Try beating that, we say. ★

'Hook' tap system, price on request, by Parisotto + Formenton and Natalino Malasorti, for CEA Design. 'Electrified S2' city bike, from £2,398, by Van Moof. 'Not A Stroke' wallpaper, part of the Out System collection, price on request, by Bertero Projects, for Wall & Decò. 'Cosimo' coffee table, \$530, by Clodagh, for RH, Restoration Hardware. For stockists, see page 169
